Smash EDO PETITION

We the undersigned protest at the presence in the UN Peace Messenger city of Brighton and Hove, of the arms manufacturers EDO MBM who are complicit in the arming and supply of Paveway smart bomb that was the most commonly used bomb in the illegal and immoral war against Iraq. They also supply bomb carriage and release mechanisms for Israeli Apache helicopters and F16 aircraft used in the brutal occupation of Palestine. We demand that they close down their factory or convert it to positive civil use and that they cease in their attempt to suppress lawful and peaceful protests outside it with the use of a cynical high court civil injunction under the Protection From Harassment Act 1997 which gives the police powers to arrest demonstrators as 'stalkers' merely for expressing their opinion on the road outside the factory. We demand that our freedoms to assembly and expression are respected as is our right under the European Convention on Human rights (ECHR) and the UK Human Rights Act 1998. art. 10 &11.
